SATURDAY, JANUARY 6, 1888. CANADA.

It will be seen by the following extracts from the Bunglo Journal, that the citizens on our North-ra Gortier a., beginning to feel the eflects of their folly and crime in thrusting themplyes into the quarrels of other people: We would not be understood as justifying in the alightest degree this breach of our neutrality. but we cannot shut our eyes to the fact, that the conduct of the citizens of Buffalo and its nellehborhood has been such as would provoke any people to tetaliation. We connect forget that the Revolutionary army at Navy Island is commanded by an American citizen that its arins, ammunition, and provisions, and a large portion of its recruits are furnished by American citizens that without the nid and encouragement of the inhabitants of our border, that army, which is now threatening to invade 'Caneda, spreading alarm and spring throughout the have been formed, and must, if that aid be withdrawn, fall to pieces in a week. Let them not pepared for their neighbors

No intimation is given of the immediate cause of the destruction of the Caroline, but we have no dhight from the character of the recent events in that quarter, that she was employed in the transportation of men and arms to Navy Island If so, the fact will relieve the covalists from the that part of the President's message in which charge of a wanton attack on our citizens, though it may not amount to a justification of the breach of neutrality under the law of nations.

POSISCRIPT.

DAILY BUFFALO JOURNAL, EXTRA, ? Saturday, Der 30, 9 o'slock, A. M. . S An Express has just arrived from the seat of ear, bringing information of the gross outrage committed by the Royalists, on the persons and

property of American citizens. About half past one last night, five boat Toads of men crossed from the Canada shere, and commenced an altack upon the steam boat Caroline, an American bottom, while lythig at Schlouer near the falls, on this side, on board which were 34 individuals, mostly from this city. Of these, our informant states, only 12

can be found, the rest having been, probably

killed on board, and sent over the falls. Capt Harding received severe wounds in the head. The dead body of Mr Durfee of this city was found lying on the dock he was killed by a ball on the head. After obtaining possession of the boat, the Royalists towed the steam-Sout into the rapids, at fire to and sunt her over the falls, being guided in their return by beacon lights at Chippewa.

The editors of the Journal are indebted to H W.R _c.s., Esq. District Attorney, for a copy of the following letter from a gentleman of this

Sculossen, 2 A M. You will probably hear-various rumers about these: five boars came to the dock where the boat was !fing, rushed on board, killed one ny h, severely wounded another, and one slightly, a number missing, boat cut loose, set on fire, and has gone over the fulls, with probably some bodic on board. There were about thirty on board the vessel a number unaccounted for.

VERY LATE FROM BUFFALO.

Extract of a letter to the Editor of the Northampton Courier, dated Buffale, Dec Ditte. We are all excitement here. War and fighting near us. Contributions of all kinds are now constantly sent to Navy Island. Arms, ommunitions, blankets, provisions. Farmers are bringing loads of produce and offering it for the benefit of the cause. Money has been subscribed to a considerable smoont. I have been full that two of our citizens subscribed waeft \$500. They have, it is said, 16 pieces of cannon, and more than 1000 stand of arms, 200 of the latter belong to this State, and were clandestinely abstracted first from the Court House, and secured by our authorities, and afterwards from the watch house where they were deposited for sife-keeping

The great majority of our citizens feel deeply interested in the cause of the patriols; and so great is the lecting of hostility among the more active against these of suspected loyal sentiments, that the distinction is deemed of almost as much importance as if our own liberties were acreteke. This will probably be the turning fint in our untuicipal politics this year. A here, and allowed himself, in the heat of excitement, to say that if the Buffeloniens were not more discreet, their city might be burned. immediately the far and leathers were forthcoming; he hardly escaped the application by running into the American flotel, accending to the cupsio, hopping from the roof on to other buildings and thus cluding his pursuers. But, in Fairfield, Leeds, and Fayette, gave Mr. Kent adiately spined, calling for volunteers to enfell the naselves for the protection of the city. And I understand a company has been formed for this purpose.

There are reseas to expect an attack will stan be made upon Navy Island: Birf. Head and McNabb, are at Chippews collecting bosts to transport, said is supposed their men. The Islanders have breast works and are very desirous of an engagement. They have previded themselves with the copper pieces which are punched out of steembeat boilers in gatat gentities, to ure as grape in this season. They must do terrible execution. As soon as attacked, it is their intention to born the town of Chippsshoet 1000 int-hit-nts.

As matter of curiosity, merely, we should like o see this editor's interpretation of Van Buren's language alluding to the late elections.

The editor of the "Age," a tory paper printed in Augusta, upon the subject of the "vork FOR GOVERSOR," in his paper of Tuesday, has the following paragraphs, which, for the "beauty of consistency" have not many parallels, even in his own columns

"If Mr Kent has a majorate of the votes, he will be declared elected otherwise not! "If Mr Kent is declared elected, he will be a minority Governor elected not only by a minority of the voters of the State. but by a minarity of those who were present at the polls on the day of election!!!

Augesta, Jan. 4, 1838. Kent has 272 majority over all other candidates, and 575 over l'arks, and will probably be declared elected. The returns this year are unusually correct; the inaccuracies are in our lavor. fithink there is a disposition on the part of the loca focus to be honest. No warlike demonstratious have been made except by Hannibal Hamim, Esq. He came over here charged an attack on the boat Caroline; the facts are to the brim, and was guilty of a political fele de so before the decent formalities of organizing the [The Senate concurred] House had been gone through with. The office holders are here with their depositions and witnesses in abandance. They will sudeavor to furnish some pretext, and then arge upon the foco-foco members of the Senate to seize upon it to defeat the expressed will of the people. It their connects prevail, actuated as they are by salaries for one year more, we shall have war. Bank and Government. If the opinions of the sagacious and considerate | Mr. Hamilton felt-embarrassed by his post men of the party prevail, the voice of the people, as expresed through the ballot box, will be obeyed. But there is no calculating what such a party, made up as it is of loco foco federalism and ultra radicalism, will do. A few days will

GRA. HANGETON OF BUSTH CAROLINA. The Charleston Courses gives the following sketch of the remarks of this gentleman, late Governor of the State, and for years the warm personal and political friend of Mr. Callinua, in the the selfish hope of preserving their offices and State Senate, on the subject of the divorce of

as lar as this question was concerned, but he was consistent in so doing, as he had long since taken his stand. In offering his resolutions he desired to spread, on the journals of the Senate, his own opinions and those of a portion of his constituents. He thought the aguation of the question uncalled for, and he held it peculiarly inexpedient to express an opinion at present, as since the New York elections, the whole project might be considered as defunct. Indeed the Legislature were but holding a post mortem examination. It was not wise to hazard an opinion on a subject which had not received the the sanction of law, and when even the Government might abandon it. Besides, the same scheme had been several times tried, and had failed. In France, it worked ill. In Virginia it failed wofully. Gen. Washington tried it for a short time, and abandoned it. Kentucky had done the same. The Government might have if entrusted with the Government deposites, but his offer was rejected, and the Government, by discountenancing banks, and offering the Sub-Treasury scheme, had out off all hope; the evil, too, after it came, might certainly have been remedied by the placing of the Govern-ment deposites in a select number of State Banks, pludged to resume specie payments by the lat of April, which could have been done. The effect of the Government project will be to centralize the precious metals at New York. So far from promoting, it will paralyze the com-

inree of the South. He here cited the opinions of Mr. Theves, in his letter to a frierd in Mississippi, against the sub the naury ... A. In this address. he teathring all the encontrol statements of his Speech at Faneuil Hall. In denying any responability for the report of his speech, he merely desired to avoid that responsibility which altached to particular expressions. It was not his intention to disavow the substance of the report. He proves conclusively that he never saw the report in question until after its publication and this is now distinctly admitted by tion; he was about to reparate from old friends, the gentlemen who gave that report to the pub (lic. In the address he conclusively establishes two important points: 1st. That he never retracted or thought of retracting the statements he made in Faneuil Hall. 2d, That those statements were true.

The issue is now fairly presented to his want ciates of the committee. It will not answer for them to repeat the game which they have been playing for a week or two past on the floor of the House. The public well understand what weight is to be given to their attempts at browbeating, bullying a man of Mr. Fletcher's char acter and position. In the controversy, as long as it was involved in doubt, we refrained from laking any part; but we are bound in justice to Mr. Pletcher to declare, in the most unequivocal terms, that he stands fully justified before his constituents and the country. His answer is full, complete and satisfactory written in a calm, dignified and honorable spirit just in its arguments, and conglusive in its statements. [New York Cour. & Enq.
